Conformity acc. to California proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)

Dear Ladies and Gentlemen,

As a manufacturer of Fine wires and high-frequency litz wires for the entire electrical engineering and power electronics we are a downstream user according to the REACH regulation and are obliged to pass on information on SVHC substances to our customer. According to the information from our suppliers, the materials used by us do not contain any other substances from the SVHC candidate list, or the maximum permissible limit values <0.1 mass percent are observed.

To ensure compliance with RoHS Directive, we use a verification process in accordance with EN 50581: 2012 and IEC 63000:2018. We have agreed with our suppliers to only supply products to us that meet the RoHS regulations. If the conformity is not kept, our suppliers are obliged to inform us immediately. As soon as we find out that our products are subject to the obligation to provide notice according to changed legal requirements, we will inform you without being asked.

We confirm that our products are in compliance with the current **REACH-, RoHS-, TSCA- and POP-**regulation / directive and are produced in accordance with their applicable requirements.

Please understand that we cannot fill out special questionnaires. However, we hope that this letter contains the information you require and thank you for your trust and good cooperation.

Yours sincerely,

Rudolf Pack GmbH & Co. KG
